valerie^{objects}

valerie^{objects}

valerie_objects is an Antwerp-based design label initiated by Axel Van Den Bossche and art director Veerle Wenes, combining their professional and personal taste for all things good and beautiful.

By allowing designers, architects and artists to translate their signature style into tangible objects, **valerie_objects** has become a unique collection of everyday items with out-of-the-box aesthetics. These are objects people truly get entangled with.

**authentic
thinking
and creative
minds
are at the heart
of the label**

Since 2011, **Muller Van Severen**, the design practice of Fien Muller and Hannes Van Severen, has been on an inspired quest for sculpturally interesting furniture objects – items that are spontaneous and produced with apparent effortlessness. The universe they create together dovetails quite naturally with their work as separate artists. Muller Van Severen is the first artist duo signed with valerie_objects.

muller van severen

Although most design lovers know of Muller Van Severen for their furniture, the design couple's story actually kicked off with the conception of these hanging lamps. "It all started out of necessity", Hannes explains. "We were working in our new home which is an old house. Above the table there wasn't a socket in the ceiling to stick a lightbulb in, so we designed a lamp that could hang from the wall".

Like all Muller Van Severen's furniture, the lamps add a sober but colorful line to the interior. On one hand the sober design doesn't draw too much attention, on the other hand its playful character does tingle the eye. The lamps create space rather than filling it up.
